Skills

- **Programming Languages:** Java
- **Frontend/Backend:** React.js, Node.js, Express.js, HTML5, CSS3, MERN stack, Bootstrap, Tailwind CSS
- **Databases:** MySQL, MongoDB
- **Cloud Services:** AWS (S3, DynamoDB, EC2, Rekognition, etc.)
- **Tools & Technologies:** GitHub, Git, VS Code

Project Work

Generative AI Web Application (React.js) (2025)

- Implemented a conversational **AI web application** using **React.js** with **Large Language Model (LLM) API integration** for real-time text generation and contextual question answering.
- Incorporated **chat history** and **message streaming** to manage state and ensure continuous conversation flow with real-time responses.
- Optimized **API requests**, improving response time by **20%**.
- Introduced **dynamic UI components** and robust **error handling** to enhance user experience and reliability.

Cloud-Based Face Recognition Attendance System (AWS) (2025)

- Developed backend APIs using **Node.js**, **AWS Rekognition**, **DynamoDB**, and **S3** for user registration, authentication, and face verification.
- Implemented **face matching with duplicate detection** and **QR-based attendance sessions** with dynamic expiry for secure tracking.
- Built **DynamoDB CRUD operations** for users, sessions, and logs, and integrated **S3 image storage** for fast face recognition.
- Collaborated with frontend team to connect APIs with **React.js**, enabling a **mobile-friendly and responsive UI**.

Google Drive Clone – Cloud-Based File Storage & Management System (AWS) (2025)

- Developed a **full-stack** cloud storage platform using **React.js**, **Node.js**, **TypeScript**, **PostgreSQL**, and **AWS** (S3, RDS, EC2, Cognito).
- Integrated **AWS S3** for file storage and **RDS** for managed database hosting, achieving **99.99%** storage availability.
- Implemented **JWT-based authentication** with bcrypt password hashing and token-based sharing with read/write permissions.
- Optimized database queries via indexing and **connection pooling**, reducing search query time by **90%**.
- Built a **drag-and-drop** upload interface with real-time progress tracking and **Material-UI** for a responsive UI.
- Deployed on **AWS EC2** with **Nginx** reverse proxy and **CloudWatch** monitoring, maintaining **99.5%** uptime.

Education

Centurion University, Bhubaneswar

Aug 2024 - Present

Master of Computer Applications

CGPA: 9.36/10

Relevant Coursework: **Object-Oriented Programming**, **Database Management Systems (DBMS)**, **Data Structures**, **Algorithms**.

Utkal University, Bhubaneswar

Aug 2021 - Jul 2024

Bachelor of Science (B.Sc) in Chemistry

CGPA: 7.71/10

Relevant Coursework: **Organic, Inorganic, and Physical Chemistry**; Industrial and Environmental Applications; Laboratory Experiments and Research Projects.

Coding Profiles and Certificates

- **GeeksforGeeks:** 100+ problems solved
- **Apna College:** Certificate of Completion for Alpha (DSA with Java) course
